

Hosting & Maintenance

Most of us cannot afford to have a full-time webguy on hand when we need it. But, what about if we shared the cost of having one?

Have a professional look after your website 24/7/365 without the huge cost.

Fully-Managed Private Cloud Servers

Level 1

\$1000.00/Year (\$500/Year for Non-Profits/Charities*)

20GB SSD Disk

512MB Memory

Addons:

Weekly Complete Server Backup

Add 25% of the cost of your chosen package. Note that each package already backups the MySQL Database of the site daily. This option backs up the entire server, including OS, Files and Databas(es).

Notes:

- All software we use is open-source, so there are no additional cost or fees.
- Packages do not include new features.
- A separate email service is required from a third party. We recommend Google Apps. It is free for Non-profits. See <https://www.google.ca/nonprofits/products/>
- All server specs (Disk Space, RAM, etc) is for your entire server, OS, addon software and website.

*50% discount available through our Code for Change program. (e.g. Level 1= \$1000-\$500=\$500)
